AAROGYAm

Foreword

In its endeavor to provide social security cover to millions of India's work force covered under ESI Scheme, major thrust is being given for providing quality health care through ESIC Hospitals to the beneficiaries of ESI Scheme. ESIC is providing medical care in the form of medical treatment and attendance to IPs and their families in respect of medical, surgical and obstetric treatment under Section 56 of ESI Act. The provision includes domiciliary visits, outpatient treatment, specialist consultation, diagnostics facilities, inpatient treatment, super specialist treatment, referral treatment, old age medical care and physical rehabilitation.

The cash benefits under ESI Scheme are Sickness Benefit, Extended Sickness Benefit, Enhanced Sickness Benefit, Disablement Benefit - both temporary and permanent disablement, Dependant's Benefit and Maternity Benefit. Unemployment Allowances under the Rajiv Gandhi Shramik Kalyan Yojna is also an additional Cash Benefit.

Since the year 1952, ESIC has come a long way in establishing hospitals in various parts of the country. The Corporation has, so far, set up 150 Hospitals and 42 Hospital Annexes, 1372/91 dispensaries/ISM Units. Super Speciality treatment is also available in some of the ESI Hospitals. The cases are referred to Tie-up Hospitals (about 800 in nos.) empanelled in each region, wherever such Super Speciality facilities are not available in ESI Hospitals.

To adapt with the changing health delivery scenario in the country and also to be the best in terms of infrastructure and other facilities, ESIC has chalked out an ambitious programme for modernization of its existing hospitals. The modernization programme is being implemented in a phased manner. Efforts are on to add state-of-the-art facilities in terms of machinery and equipments as per the requirement. The medical institutions of ESIC are striving to be 'Centers of Excellence'.

The Hand Book 'Arogyam' gives a brief of the facilities provided by 34 ESIC Hospitals directly run by the Corporation. (Other 116 ESI Hospitals are functioning under the control of the respective State Governments, as per the mandate of ESI Act, 1948). All efforts have been made to include user friendly details for the benefits of our Stakeholders.

I am sure that this Hand Book will be of great help to the Stakeholders of ESIC, especially the Insured Persons and their family members, particularly in the context when the IPs can avail the treatment at any of the hospitals of ESIC as per their choice.

(Anil Kumar Agarwal, IAS)
Director General, ESIC

Date : 2nd November, 2012
Place : New Delhi

ESIC Model Hospital, Nacharam

Nacharam, Hyderabad – 500 076, Andhra Pradesh

AAROGYAm

The 200 bedded, ISO: 2008 certified hospital has out-patient and in-patient facilities with all necessary infrastructures. With the renovation of the hospital under phase – I, the bed strength will go up to 250 and is expected to start some ne super-speciality services like plastic surgery, medical oncology and gastroenterology . In-patient facilities are provided in the disciplines of general medicine including dermatology, general surgery, pediatrics, obstetrics & gynecology and orthopedics. The facilitation centre provides information about the services available in the hospital and also about the tie-up hospitals for super-specialty treatment and clarifies the queries of the ESI beneficiaries. Round the clock accident and emergency service are provided through Casualty Medical Officers. Medical officers/Senior Residents are on floor duty for emergency services in General Medicine, General Surgery, Anesthesia, Pediatrics, and Obstetrics & Gynecology. All the specialists are available on call and attend to emergencies as and when required. X-Ray, Laboratories and ECG facilities are available round the clock even on Holidays.

ESIC Super Speciality Hospital, Sanathnagar
Sanathnagar, Hyderabad-500 038, Andhra Pradesh

AAROGYAm

Inaugurated on 30th April, 2011, this Hospital is the first Super Speciality Hospital of ESIC. The hospital was planned to provide super speciality facilities by ESIC doctors in the disciplines of Cardiology & Cardio Thoracic Surgery, Neurology & Neuro Surgery, Nephrology & Urology and Paediatric Surgery. With 100 beds, the hospital is fully air conditioned with all modern facilities for the OPD & indoor patients and also has ICCU, Cath Lab, ICU, Dialysis Unit and state-of-the-art modular operation theaters, 3 Tesla MRI & 128 slice CT machine. The OPD of the hospital gets around 250 referred cases per day from various hospitals. The hospital has started Dialysis Unit, first of its kind in ESIC, which is being run on public - private partnership model. The 15 Dialysis machines cater to the in-house dialysis needs of ESIC beneficiaries. At present, on an average, 127 patients are being registered for dialysis at this centre and day by day numbers are increasing.

ESIC Model Hospital, Guwahati

Beltola, Guwahati - 22, Assam

AAROGYAm

Located in the eastern most corner of Guwahati city adjacent to the borders of Meghalaya, the hospital is well connected by road with the rest of the city of Guwahati. The hospital was commissioned in 1985. Initially, the hospital was run under ESI Scheme, Govt. of Assam and was taken over by ESIC on 4th April, 2003. It is the only referral hospital in the entire North-Eastern region for ESIC beneficiaries. Besides Assam, the IPs and their beneficiaries from Meghalaya, Nagaland and Tripura are also getting medical treatment from this hospital. The hospital consists of 6 blocks, viz. OPD, O.T., Lab & Stores, Administrative, Indoor wards and kitchen blocks. The present bed strength of 50 is being upgraded to 100 for providing treatment to the IPs of 34 ESI implemented centers, for which the planning is in the advanced stage.

ESIC Medical College & Model Hospital, Rajajinagar

No. 27, 17th Main, 2nd Block, Rajajinagar, Bangalore - 10

AAROGYAm

Inaugurated on 30th November, 1961, The ESIC Model Hospital, Rajajinagar, Bangalore has always been a referral hospital for the other ESI Hospitals of Karnataka. Under the Model Hospital Scheme, it was handed over by the State Government to ESIC on 1.4.2003. From a humble beginning with 100 beds, the bed strength has now gone up to 500. The Hospital offers post graduate courses in 8 specialities and Medical Council of India has granted permission to start an undergraduate medical college with an intake of 100 students annually from the academic session 2012-13. The MBBS Course has already started.

The hospital provides general speciality services along with regular super speciality services in the Department of Urology and Burns and plastic surgery. Part time specialists are managing the services of Cardiology, Gastroenterology, Neurology, Endocrinology, and Oncology. Intensive care services are available for medical and surgical cases, pediatrics and neonates. A day care ward is functioning for oncology patients who receive anti-cancer chemotherapy within the hospital.

The emergency department functions round the clock in all general specialities with doctors on floor duty. The hospital has state-of-the-art facilities in pathology, microbiology and biochemistry and facilities of CT/MRI, Digital X-ray and ultrasound.

ESIC Hospital, Tirunelveli, Tamil Nadu

Salai Street, Vannarpettai, Tirunelveli- 627 003, Tamilnadu

AAROGYAm

The 100 bedded ESIC Hospital with state-of-the-art equipments, constructed in 2.15 acres of land will provide good quality secondary health care services to 1.44 lakhs of insured persons and 5.5 lakhs beneficiaries in southern part of Tamil Nadu, particularly of Tirunelveli, Tuticorin and Kanyakumari districts. The OPD services were started with effect from 16th April, 2012. Presently, the OPD is managed by part-time specialists in five departments Viz. Surgery, Paediatrics, General Medicine, Orthopaedics and O&G. The process of appointing part-time Ophthalmologist, Dentist, and Ayurvedic Physician is in progress. On an average, per day, 100 investigations in Microbiology / Biochemistry/ Pathology are conducted by the clinical laboratory of the hospital and nearly 10-15 ECGs are taken. Efforts are being made to appoint more specialists, General Duty Medical Officers and Para-medical staff.

The hospital is conducting two medical camps in each month, one at the Hospital premises and one outside the Hospital. For secondary and care / diagnostic procedure, at present the cases are referred to tie-up hospitals and diagnostic centers.
